TOWN OF COUPEVILLE
Coupeville, Washington

ORDINANCE NO. 739

AN ORDINANCE of the Town Council of the Town of Coupeville, Levying Taxes on all Real Property – Real, Personal, and Utility, subject to taxation within the corporate limits of the Town of Coupeville, Washington for the year 2018- Pursuant to RCW 84.55.120

WHEREAS, the Town Council of the Town of Coupeville has met and considered its budget for the calendar year 2018; and

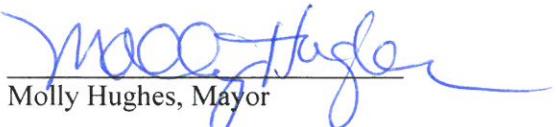

WHEREAS, the Town of Coupeville's actual levy amount from the previous year was \$376,187.99; and

WHEREAS, the population of the Town of Coupeville is less than 10,000; and now, therefore

BE IT RESOLVED by the Town Council of the Town of Coupeville that an increase in the regular property tax levy is hereby authorized for the levy to be collected in the 2018 tax year. The dollar amount of the increase over the actual levy amount from the previous year shall be \$3,761.88, which is a percentage increase of 1% from the previous year. This increase is exclusive of additional revenue resulting from new construction, improvements to property, newly constructed wind turbines, solar, biomass, and geothermal facilities, any increase in value of state assessed property, any annexations that have occurred and any refunds made.

ADOPTED by the Town Council and **APPROVED** by the Mayor this 24th day of October, 2017.

2018 Budget Message

The 2018 budget was prepared with the assistance of the Town's Department Managers and the guidance of the Coupeville Town Council. This budget reflects our desire to continue to serve our residents with excellent customer service and fiscal responsibility. This budget also reflects a renewed commitment to maintenance and upgrades to our Town's critical infrastructure. Special thanks again go to our Clerk Treasurer, Kelly Beech, for her historical knowledge of the Town's budget and our municipal requirements and her excellent organizational skills which keep all of us on schedule while working on the annual budget.

Staffing

Last year was all about getting our staffing level up to the necessary levels to accomplish the work that must be done in the town. Departments were reorganized, some job descriptions were fine-tuned and much of our time was spent finding, hiring and training the right people for the job. I am very happy to say we are fully staffed with an excellent crew. We were fortunate to add some uniquely qualified, enthusiastic, members to our town team. This year's budget reflects the staffing levels that were authorized by the Town Council last year, no new positions are planned in 2018. It also reflects a significant decrease in 'professional services' expenses; contract engineers, building inspectors and plan checkers because now we can provide those services in-house.

- The staffing for 2018 includes one full time Mayor, four Department Managers (Public Works, Utility, Finance/Admin, and Planning) eight full-time employees, two part-time employees and one seasonal employee.
- The Town is renewing our contract with the Island County Sheriff's Office for policing services within the town limits. We will again have two, full-time officers dedicated to our Town.
- This budget reflects a 2% cost of living raise for our employees.

001 General Fund

A 1% property tax increase will generate increased revenue of \$3,762. Property tax, sales tax, and utility tax continues to account for almost 80% of our General Fund revenues.

This budget continues the practice started last year of creating reserve funds for the Town Shop, Town Hall and the Rec Hall, all of which need some small capital project and long term maintenance money. We will also be accruing funds for technology maintenance and upgrades. Also, money has been rolled over from the 2017 budget to continue the work on the Comprehensive Plan, Personnel Policies, and the town website.

101 Street Fund

This year's budget includes \$256,000 in grant money for street overlays and repairs. As always, if we don't receive the grand funding, the work will not be done.

104 Hotel/Motel Tax Fund

The Town changed its policies for accepting applications and awarding these funds, often referred to as 2% Funds. We now have an open and more transparent process to spend this money on tourist-related activities. We are projecting similar revenue and expenses as in past years.

105 Capital Improvement Fund

This year's budget includes \$255,000 in grant money the Town was awarded from the 9% Rural Economic Development Fund to work on the Master Green project. The money will be used for security lighting, improved drainage, storm water management and to develop additional parking spaces. The Town will spend an additional \$130,000 to build a new public restroom in municipal parking lot. Our plans also include a remodel of the restroom in Town Park and some simple improvements to the Holbrook Barn so it may be used as a community resource.

Utility Accounts – Last year our utility revenues and expenses were broken up into three individual accounts; water, sewer, and storm water. We also implemented a rate increase in the sewer and storm water utilities. Revenues in all three utility accounts generated revenue as planned and the revenues have been budgeted according to these rates with a small, planned increase in November.

410 Water

Projected expenses include upgrades to our water treatment plant to increase our capacity to produce water, upgrades to our telemetry system, well rehabilitation, and line replacement.

420 Sewer

Projected expenses include upgrading the headworks and blowers in the treatment plant, line replacement, and small equipment replacement.

430 Storm Water

Projected expenses include culvert replacements, outfall rehab. The engineering has been completed for the storm water project on Front Street and construction should be complete in 2018.

On behalf of the Town Staff, the Town Council and myself, I would like to thank you for your continued support and assure you we are all looking forward to a very productive and successful 2018!

Sincerely,

Molly Hughes
Mayor

2018 Budget Calendar

The Town of Coupeville's formal budget process begins in September with discussion of the budget policies and preparation of documents for all departments. Each department head prepares requests for the year based on Council priorities, goals, objectives and fiscal considerations. During this time the Clerk-Treasurer develops and updates revenue estimates for the coming year. The Clerk-Treasurer consolidates the department requests and revenue projections and presents the proposed budget to the Mayor in early October.

The Mayor and Clerk-Treasurer meet to review the specific requests of the departments and prepare a preliminary budget. The Mayor files the preliminary budget and budget message with the Council and Clerk-Treasurer at the beginning of October. The balanced preliminary budget is presented to the Town Council and public by the first meeting of November. The Mayor, Council, and department heads analyze the preliminary budget in the next couple of weeks, and a Public Hearing is held at the last Council meeting in November. Public comment on the budget is welcomed at the public hearing. Before the end of the year the Town Council by a majority of members, then adopts the final Operating Budget by ordinance, effective January 1.

Budget amendments:

The budget may be amended from time to time, to reflect changes in revenues or expenditures that were not originally anticipated. Formal budget amendments affecting total fund expenditures are initiated by the Clerk-Treasurer in conjunction with the Mayor. Following a public hearing, the Town Council may authorize the amendment by ordinance.

2018 Budget Policies

Fiscal Policies

- 1) General Fund Ending Balance should be maintained at a minimum of \$300,000.
- 2) Water Fund Ending Balance should be maintained at a minimum of \$100,000.
- 3) Sewer Fund Ending Balance should be maintained at a minimum of \$100,000.
- 4) Stormwater Fund Ending Balance should be maintained at a minimum of \$20,000.
- 5) Annual revenues should cover annual operating expenditures in the General, Street, Water, Sewer and Stormwater Funds.
- 6) Transfers between funds may be authorized by the adopted budget, or by specific Council action.
- 7) User fees are adopted annually at the Council level, and are designed to cover the costs of the service unless the Council decides to subsidize the cost.
- 8) Utility rates and connection fees will be set to cover operating expenditures and capital project needs. Utility rates and connection fees should be reviewed by the Utility Advisory Committee every two years for adequacy, and a report of their findings provided to the Town Council. Connection fees are to be used for capital projects only.
- 9) The Debt Service Ratio in the Water and Sewer Fund (net revenues divided by debt service) should not fall below 1.50.
- 10) Interfund lending is permissible with Council approval, providing a planned schedule of repayment of loan principal as well as setting a reasonable rate of interest to be paid to the lending fund. The loan may continue over a period of more than one year but must be "temporary" in the sense that no permanent diversion of the lending fund result from failure to repay by the borrowing fund (Resolution 86-10).
- 11) All possible funding sources, governmental or private, will be explored before committing Town funds (Resolution 94-14).
- 12) Long-range budgets will be developed based on projected growth according to the current Comprehensive Plan; public demand; and location, use, and condition of present facilities (Resolution 94-14).
- 11) Capital projects and purchases that are listed in the current budget are presumed approved and can be carried over and expended in the new year as long as there are sufficient funds. The Clerk-Treasurer will advise the Council of projects that will be carried over by memo at a Council session. In no case, can the total project amount be increased without Council approval. If the bottom line fund balance needs to be increased as a result, an amendment will be made as soon as it's practical.
- 12) Equipment purchases of items under \$1000 shall be considered small tools and minor equipment; purchases of \$1000 or greater shall be considered capital equipment.

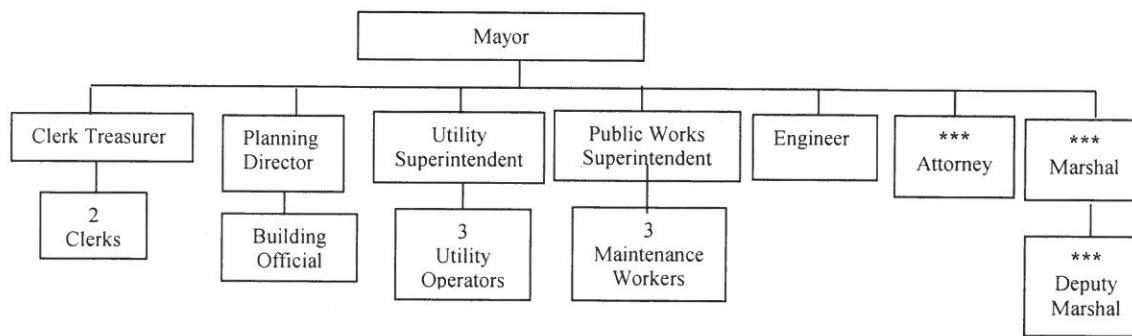

Allocation Policies

- 1) Fuel Tax revenues will be accumulated in the Street Fund until there is enough for a major project, or to be used as match for a grant or loan that will accomplish a major project. Revenues in the Street Fund may also be used as funding for an approved Pavement Management System for all Town streets.
- 2) The revenue for the 2% Hotel/Motel Tax may be allotted in the year after it was received (Resolution 17-18).
- 3) Water and sewer connection fees will be put in reserves to fund water and sewer capital projects (Ordinance 730). Revenues will be accumulated until there is enough for an approved project, or to be used in conjunction with a grant or loan to accomplish an approved project.
- 4) Administrative fees will be transferred from the Water Fund, Sewer Fund, and Storm Water Fund to the General Fund, to cover the expenses of general administrative services (Council, Mayor, Administration, Public Works, Planning, and Building) to support the operation of each utility. No wages will be charged directly to the Utility Fund for administrative services. Time studies will be done on an annual basis and an average of the last 5 studies will be used to calculate a rate at which the administrative fee will be transferred for each department. An allocation for Council expense will be made based on agenda items and ordinances related to utilities. Legal fees will be charged directly to the Utility Fund.

Employee - Personnel Policies

- 1) The Salary and Wage Schedule will be approved annually by the Town Council (Resolution 94-6).
- 2) Reserves will be set aside to cover Accrued Compensation Balances.
- 3) The Town Council will adopt budgets and set salaries in order to achieve the organization and level of staffing outlined below.

Investment Policies

- 1) It is the policy of the Town to invest public funds in a manner which will provide maximum security with the highest investment return while meeting the daily cash flow demands of the Town, and conforming to all state and local statutes governing the investment of public funds (Resolution 96-03).
- 2) Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable income to be derived (Res. 96-03).
- 3) The primary objectives, in priority order, of the Town's investment activities shall be: Safety, Liquidity, and Yield (Resolution 96-03).
- 4) The Town will diversify its investments by security type and institution. With the exception of U.S. Treasury securities and authorized pools, no more than 50% of the entity's total investment portfolio will be invested in a single security type or with a single financial institution (Res. 96-03).
- 5) To the extent possible, the Town will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the Town will not directly invest in securities maturing more than five years from the date of purchase (Resolution 96-03).

Capital Policies

- 1) The responsibility for financing capital improvements should be assumed by the primary beneficiaries of the facility (Resolution 94-14).
- 2) General Revenues should be used to fund projects only if the project provides a general benefit to the Town (Res. 94-14).
- 3) The Town should use long-term borrowing to fund projects when the proposed facility will provide benefits for 20 years or longer.
- 4) The Town should seek grants or private funds whenever available to finance capital improvements (Resolution 94-14).
- 5) All major transactions, such as the purchase or sale of public land, will be studied for the effects they will have on needed utilities and services (Resolution 94-14).
- 6) Capital costs for public facility projects, including an estimate of subsequent operating costs, will be identified in a Capital Facilities Plan (CFP).
- 7) The 6-year Capital Improvement Plan (CIP) will be reviewed annually, prior to the Budget Process. Annual capital needs identified in the revised CIP will be used in the compilation of the annual budget.
- 8) Capital needs will not be considered during the Budget Process unless they have already been identified in the Capital Facility Plan. (2017 review will occur in 2018. Any new proposed capital projects will be included in a 2018 Budget Revision following CIP update.)
- 9) Capital improvement projects or purchases related to the General Fund and/or Street Fund will be accounted for directly out of Fund 105, the Capital Improvement Fund.

Budgetary Accounting

- 1) The Clerk-Treasurer, with written approval or direction from the Mayor, is authorized to move funds from one line item to another in a fund's budget, provided that the total approved expenditure for the fund is not exceeded. The Council shall be informed of such actions.

Hearing Examiner fees: Applications requiring a hearing before the Hearing Examiner shall be charged according to the current Agreement for Professional Services between the Town of Coupeville and the Hearing Examiner. Direct costs above the base fee will be charged to the application at the rates described in Exhibit A of the Professional Services Agreement. The Town may, at its discretion, require a deposit based on an estimate of the cost of hearing examiner services prior to a determination that a land use application is complete. Any unexpended portions of such deposit shall be returned to the applicant following withdrawal of the application or following issuance of a decision on the application and receipt of all associated Hearing Examiner invoices.

Professional peer-review: Consultants with specialized expertise in scientific fields, e.g., biology or engineering, may be engaged by the Town to perform peer review of land use and development applications at the determination of the Town Planner or Town Engineer. Costs for such review shall be paid by the applicant in addition to the review and processing fees identified in this fee schedule. The Town may, at its discretion, require a deposit based on an estimate of the cost of services prior to a determinat that a land use application is complete. Any unexpended portion of the deposit shall be returne tot the applicant following withdrawal of the application or following issuance of a decision on the application and receipt of all associated consultant invoices.

Attorney fees: Where identified in this fee schedule as a cost to process an application, attorney charges incurred by the Town in the review of the application and/or preparation of documents shall be paid by the applicant. The Town may, at its discretion, require a deposit based on an estimate of the cost of legal services prior to a determination that a land use application is complete. Any unexpended portions of such deposit shall be returned to the applicant following withdrawal of the appiication or following issuance of a decision on the application and receipt of all associated invoices.

001 GENERAL FUND

The General Fund accounts for all the resources and expenditures of the Town except those required to be operated according to specific guidelines. Examples of revenues and expenditures accounted for separately are the street funds, reserve funds and utility fund.

Revenue for this fund comes from the following:

| Revenue Code Series | Type of Revenue |
|------------------------|----------------------------------|
| 310's | • Taxes |
| 320's | • Licenses and permits |
| 330's | • Intergovernmental revenues |
| 340's | • Charges for goods and services |
| 350's | • Fines and forfeits |
| 360's | • Miscellaneous revenue |
| 380's | • Non-revenues |
| 390's | • Other Financing Sources |

Within the General Fund, expenditures are tracked by various departments and categories as follows:

| Expenditure Code Series | Type of Expenditure |
|----------------------------|-------------------------------|
| 511 | Legislative |
| 512 | Judicial |
| 514 | Finance and Administration |
| 515 | Legal Services |
| 518 | Central Services |
| 521 | Law Enforcement |
| 522 | Fire Control |
| 525 | Emergency Management Services |
| 531 | Environmental Preservation |
| 539 | Public Works |
| 557 | Economic Development |
| 558 | Building & Planning |
| 562 | Public Health |
| 575 | Recreation Hall |
| 576 | Parks & Recreation |
| 586 | Agency Disbursement |
| 594 | Capital Outlay |
| 597 | Transfers Out |

The Ending Balance in the General Fund is projected to be over the policy requirement of \$300,000.

GENERAL FUND REVENUES

With the passage of Initiative 747 in 2001, the amount of increase of property taxes is limited to one percent for jurisdictions with a population under 10,000.

Beginning Balance -- It is a goal of the Town to maintain a minimum cash balance of \$300,000 to maintain an adequate cash flow for expenditures, and to provide some reserve for unexpected expenses.

Taxes

- **Property Taxes** account for approximately 28% of the revenue to support the General Fund. An increase of 1% in the regular property tax levy, in addition to the increase resulting from the addition of new construction and improvements to property and any increase in the value of state assessed property, is authorized for the 2018 levy.
- **Sales & Use Tax** is that portion of the state sales tax which is collected and returned to the Town based upon actual sales in the Town, and accounts for approximately 25% of the General Fund revenue. Coupeville experienced some growth in this tax in the past years due to special construction projects.
- **State Shared Revenues** are made up of gasoline taxes, liquor receipts (profits and excise taxes) and motor vehicle excise taxes, including travel trailer and camper excise tax. These taxes are collected by the State of Washington and shared with local governments based on population.
- **Utility Tax** revenue is generated from a tax on the electric, telephone, cable, garbage, water, sewer fees and miscellaneous fees charged within the Town limits. Utility taxes are projected to bring in 22% of the General Fund Revenue in 2018.
- **Liquor Receipts** – Since cities and towns are responsible for the policing of liquor establishments located within their limits, but are precluded from taxing them because of the state liquor monopoly, the law provides that a share of the state-collected profits and taxes be returned to cities and towns to help defray the costs of policing liquor establishments.

Permit & License Fees

Fees are established for building and various permits. Major construction projects have accounted for higher revenue in these categories in the last few years. Because this is a source of revenue that is very dependent on the economy and interest rates, the current budget revenue from regular building activity was estimated at a level that is more conservative than historical data would indicate.

In Lieu of Taxes - Revenues from tax-exempt organizations such as Cambey, Dean Manor and the County have been collected to pay for necessary services (such as police).

Charges for Services -- The Town has established fees for certain services to help offset the cost of providing those services. These fees are reviewed annually as part of the budget process.

Fines and Forfeits -- This revenue category accounts for fines assessed for traffic violations, misdemeanors, and ordinance violations.

Miscellaneous Revenue – This category includes investment interest earnings on the cash balance and rent for use of the Recreation Hall and Pavilion as well as donations from the community.

Agency Deposits – This includes the state and county portion of penalties collected through the court system on town cases. This funding is passed on to the county and state and forwarded to them as Agency disbursements.

Other Financing Sources -- An administrative charge is transferred annually from the Utility Fund to cover a portion of the general operative overhead of the Town.

The Street fund is a fund established by state mandate for expenditures relating to the maintenance of Town streets. Revenue for the Street Fund comes from Motor Vehicle Fuel Tax, and General Fund transfers. Funding covers street paving, general street and sidewalk repair and street cleaning.

Motor Vehicle Fuel Tax is distributed by the State Treasurer to the towns based on population and are to be used for streets only. Policy states annual revenues should cover expenses.

Carryover projects from 2015: Parking Lot Planning - \$6,000, Front Street Sidewalk & Repair - \$13,500

104 - Hotel/Motel Tax Fund Revenues

The Hotel/Motel Tax Fund consists of money received from the Town's Hotel-Motel tax and is allocated to tourism promotion, some expenses included in this fund are the Town concert, the Water Festival BBQ, and Christmas lights.

Resolution 17-18 states revenue for the 2% tax may be allotted in the year after it is received, for the following year. Ordinance #345 sets up Fund 104.

The Town's allocation process was changed in 2017 from an annual allocation process to an annual competitive process.

Organizations are invited to apply for funds in September and grants are awarded in October for the following funding year.

The additional 2% tax is allocated to the County for promotion of tourism.

Funds collected from a tax on real estate sales, commonly called the Real Estate Excise Tax (REET), are deposited into the Capital Improvement Fund. RCW 82.46.010 authorized a real estate excise tax levy of 1/4% to be used solely for financing capital projects specified in the capital facilities plan element of the Comprehensive Plan. This is known as REET 1 tax.

The Growth Management Act authorized another 1/4% for capital facilities (RCW 82.46.035) and requires the 1/4% real estate excise tax to be used primarily for financing capital facilities specified in the government's capital facilities plan. This is known as REET 2 tax. RCW 82.46.010 (7) From July 22, 2011 thru December 31, 2016, cities may use the greater of \$100,000 or 35% of available funds, but not exceed \$1,000,000 per year, for operations and maintenance of existing capital projects.

REET 1 tax is broader in that it allows for planning, acquisition, construction, reconstruction, repair, replacement, rehabilitation, or improvement of recreational facilities; law enforcement facilities; fire protection facilities; trails'; libraries; administrative and/or judicial facilities; river and/or waterway flood control projects, which are not included in REET 2. Also, acquisition and replacement of parks are allowed by REET 1 but not REET 2.

OSPC - Total \$14,679 for debt service. The balance of principal at the end of 2014 will be \$71,518.

Ciralo Property - REET funds will be used for principal & interest on Ciralo property. The balance of principal at the end of 2014 will be \$84,691.

Carryover projects from 2014: New Public Restrooms - \$40,000; Records Storage - \$15,000; Municipal Parking Lot \$20,000; Remodel Restrooms at Town Park \$35,000; Holbrook Barn \$44,000.
