

TOWN OF COUPEVILLE STATE ENVIRONMENTAL POLICY ACT (SEPA) ENVIRONMENTAL CHECKLIST

Purpose of checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for Lead Agencies:

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for nonproject proposals:

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

A. Background [\[HELP\]](#)

1. Name of proposed project, if applicable: [Coupeville Cash Store](#)
2. Name of applicant: [Salty Vons, LLC, Barbara J. Summers, Member](#)

3. Address and phone number of applicant and contact person:

Barbara J. Summers
Salty Vons, LLC
PO Box 549
Coupeville, WA 98239
(503) 539-1641

4. Date checklist prepared: February 10, 2020

5. Agency requesting checklist: Town of Coupeville

6. Proposed timing or schedule (including phasing, if applicable): Project will begin about April 15, 2020 after all appropriate permits are secured.

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. Yes, Exemption from Shoreline Substantial Development Permit granted October 30, 2019 for emergency work to include foundation repair, repair of deck and stairway to Lower Loft Eatery, replacement of front awning, and decommissioning and replacement of compromised sewage holding tank.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal. This SEPA checklist.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. No.

10. List any government approvals or permits that will be needed for your proposal, if known. A Hydraulic Permit issued by the WDFW will be needed. Paul Marczin, WDFW, indicated the HPA will be limited to BMPs to prevent construction debris from landing on beach and water.

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

Proposal involves the exterior repair and maintenance, restoration of historic features and renovation to improve access and public view of building to include: repair of siding, replacement of damaged siding, painting, framing for and installation of windows and exterior doors per plan, re-construction of catwalk on north elevation per plan, removal and construction of stairways and walkways on the east side of the building to access upper residential units and lower commercial space per plan, relocation of electric meters from west to east side of building away from public view, repair/replacement of skirt board covering pier blocks/pilings, relocation (still away from public view) one and elimination of two propane tanks to achieve 5' setback from property line after adjustment with 10 NW Front Street.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

Commonly known as 12 NW Front Street, Coupeville, WA 98239 (map previously provided to Town of Coupeville)

5 ALEX DC – BG NECR ALEX DLC N83*W219' TPB N83*W65' ANG TO L 93*45' 67.08' ANG TO L86*03'65' ANG TO L94*9' 67.31' TPB TGW: TRIANGULAR STRIP LY ALG WLY BDRY TL 72 DESC: BG NECR ALEX DC N83*W ALG ML 219' TPB S2*W67.31' TO NLN FRONT ST NELY TP ML S83*E6' FR

B. Environmental Elements [\[HELP\]](#)

1. Earth [\[help\]](#)

a. General description of the site:

(circle one): Flat, rolling, hilly, steep slopes, mountainous, other [Marine intertidal](#). [Cobble, gravel, and sand absent of vegetation.](#)

b. What is the steepest slope on the site (approximate percent slope)? [Flat with less than 2% slope up to sea wall/marine barrier. Beyond Sea wall/marine barrier about 12% up to Front Street.](#)

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils. [Cobble, gravel and sand absent of vegetation.](#)

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. [The shoreline in the vicinity of the Coupeville Cash Store is classified as stable in the Ecology Coastal Atlas Map.](#)

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill. [Not Applicable](#)

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. [Not Applicable](#)

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? [Not Applicable. No change.](#)

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: [Not Applicable](#)

2. Air [\[help\]](#)

- a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known. [Not Applicable](#)
- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. [Not Applicable](#)
- c. Proposed measures to reduce or control emissions or other impacts to air, if any: [Not Applicable](#)

3. Water [\[help\]](#)

- a. Surface Water: [\[help\]](#)
 - 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

[Proposal is located on the Coupeville waterfront in Penn Cove.](#)
 - 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. [Yes, proposal involves the exterior repair and maintenance, restoration, renovation to improve access and public view of building to include: repair of siding, replacement of damaged siding, painting, framing for and installation of windows and exterior doors per plan, re-construction of catwalk on North elevation per plan, removal and construction of stairways and walkways on the east side of the building to access upper residential units and lower commercial space, repair/replacement of skirt boards covering foundation pier blocks/pilings, and relocation of electric meters from west to east side of building away from public view.](#)
 - 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

[Not Applicable](#)
 - 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. [Not Applicable](#)
 - 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.
[Not Applicable](#)

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. **No**

b. Ground Water: [\[help\]](#)

1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. **No groundwater to be withdrawn.**

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve. **Not Applicable**

c. Water runoff (including stormwater):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. **Not Applicable**

2) Could waste materials enter ground or surface waters? If so, generally describe. **Not Applicable**

3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe. **No**

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any: **Not Applicable**

4. Plants [\[help\]](#)

a. Check the types of vegetation found on the site:

____ deciduous tree: alder, maple, aspen, other

____ evergreen tree: fir, cedar, pine, other

- shrubs [Above sea wall/marine barrier.](#)
- grass
- pasture
- crop or grain
- Orchards, vineyards or other permanent crops.
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation [Above sea wall/marine barrier.](#)

- b. What kind and amount of vegetation will be removed or altered? [No vegetation will be removed or altered.](#)
- c. List threatened and endangered species known to be on or near the site. [None](#)
- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: [Not Applicable](#)
- e. List all noxious weeds and invasive species known to be on or near the site. [None observed](#)

5. Animals [\[help\]](#)

- a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site.

Examples include:

- birds: hawk, heron, eagle, songbirds, other:
- mammals: deer, bear, elk, beaver, other:
- fish: bass, salmon, trout, herring, shellfish, other _____

[Bald eagles, seagulls, herons, several species of hawks, crows, and many varieties of songbirds have been observed on or near the site. Have not observed any mammals or fish on the proposed site but have observed seals near the site. Mussels are near the proposed site but have not been observed on the site except shells dropped by seagulls.](#)

- b. List any threatened and endangered species known to be on or near the site.
[The National Marine Fisheries Service has listed Boccacio, *Sebastes paucispinis*, as an endangered species; Puget Sound Chinook salmon, *Onchohynchus tshawytscha*, steelhead trout, *O. mykiss*, Hood Canal summer chum, *O. keta* and yellow eye rockfish, *Sebastes ruberrimus*, as threatened species; and coho salmon, *O.kisutch*, a candidate species, as potentially occurring near the project site \(NMFS 2008\). The US Fish and Wildlife Service \(USFWS\) has identified the coastal population of bull trout, *Salvelinus confluentous*, a threatened species as potentially occurring near the project site \(USFWS 2009\).](#)

Bald eagles have been removed from the Endangered Species Act (ESA) listing on August 8 2007, and are now protected under the Eagle Act and the National Bald Eagle Management Guidelines (NBEMG; USFWS 2007). The USFWS reports that foraging marbled murrelets, *Brachyramphus marmoratus*, a threatened species may occur in the marine water near to the project site.

Southern Resident Killer Whales (SRKW), *Orcinus orca*, are listed as an endangered species by NMFS as potentially occurring near the site (NMFS 2008).

- c. Is the site part of a migration route? If so, explain. [Project is located in intertidal area. Juvenile salmonids are likely to move near the project site during the annual outmigration.](#)

- d. Proposed measures to preserve or enhance wildlife, if any: [Not Applicable. No in-water or inter-tidal work is proposed except set up and disassembly of scaffolding to be attached to building and access by workman to areas requiring repairs and maintenance.](#)

- e. List any invasive animal species known to be on or near the site. [Not Applicable](#)

6. Energy and Natural Resources [\[help\]](#)

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. [Electricity and limited use of propane in Apartment.](#)

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. [No](#)

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: [None as part of this proposal. Planned interior upgrades to replace resistance heating with mini-split heat pumps. Propane to be removed as primary heat source for commercial spaces and replaced with mini-split heat pumps. On demand water heater to replace standard water heaters in residential units.](#)

7. Environmental Health [\[help\]](#)

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.
 - 1) Describe any known or possible contamination at the site from present or past uses. [Not Applicable](#)

- 2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. [Not Applicable](#)
- 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. [Not Applicable](#)
- 4) Describe special emergency services that might be required. [Not Applicable](#)
- 5) Proposed measures to reduce or control environmental health hazards, if any: [BMPs to prevent construction debris from landing on the beach or water. Scaffolding to be attached to the building to facilitate exterior work.](#)

b. Noise

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? [Not Applicable](#)
- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. [Short-term noise from various hand tools used in construction.](#)
- 3) Proposed measures to reduce or control noise impacts, if any: [Construction will occur during daylight hours.](#)

8. Land and Shoreline Use [\[help\]](#)

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. [Site and adjacent properties are part of the downtown historic commercial district of the Town of Coupeville. The current use of the property includes small commercial on the lower and street level and residential on the upper level. The proposal does not affect the use of the subject or adjacent properties.](#)
- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use? [None. Not Applicable](#)
 - 1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides,

tilling, and harvesting? If so, how: [Not Applicable](#)

- c. Describe any structures on the site. [There is a single wood frame 3-story building on the site with pier blocks/piling foundation. Building footprint is 30'4" wide by 61'6" long with a deck at the lower level measuring 16'1-1/2" wide by 21' 11-1/2" long .](#)
- d. Will any structures be demolished? If so, what? [The stairways on the east side of the building will be demolished and replaced per plan.](#)
- e. What is the current zoning classification of the site? [Historic Limited Commercial District \(HLC\) intended to accommodate water oriented uses, along with small scale commercial uses which are compatible in size, scale and visual character with the district's historic character.](#)
- f. What is the current comprehensive plan designation of the site? [The Coupeville Cash Store is a historic building in the comprehensive plan.](#)
- g. If applicable, what is the current shoreline master program designation of the site? [Historic Urban Development](#)
- h. Has any part of the site been classified as a critical area by the city or county? If so, specify. [All shoreline within Puget Sound is designated as critical area.](#)
- i. Approximately how many people would reside or work in the completed project?
[Approximately 5-10 people work at the three commercial businesses located in the building. In addition, the residences on the upper level will sleep 8-12 people in three different units that are planned to be available for short term vacation rental or long term rental.](#)
- j. Approximately how many people would the completed project displace? [None. Not Applicable](#)
- k. Proposed measures to avoid or reduce displacement impacts, if any: [Not Applicable](#)

- L. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: [The proposal has been reviewed and approved by the Historic Preservation Commission.](#)
- m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any: [Not Applicable](#)

9. Housing [\[help\]](#)

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing. [There are currently 3 commercial units and 3 residential units \(4 bedrooms\) The project will not change the number of units. Interior upgrades to the residential units will ready them for mid-high end short term vacation rentals. Alternatively, they could be used as long-term rentals.](#)
- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing. [None.](#)
- c. Proposed measures to reduce or control housing impacts, if any: [Not Applicable](#)

10. Aesthetics [\[help\]](#)

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? [Not Applicable. Existing structure to remain at the same height.](#)
- b. What views in the immediate vicinity would be altered or obstructed? [Not Applicable](#)
- c. Proposed measures to reduce or control aesthetic impacts, if any: [The proposed project is planned to improve the aesthetic impact of the building by restoring historic features and completing deferred maintenance.](#)

11. Light and Glare [\[help\]](#)

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur? [Not Applicable.](#)
- b. Could light or glare from the finished project be a safety hazard or interfere with views? [No](#)

c. What existing off-site sources of light or glare may affect your proposal? [Not Applicable](#)

d. Proposed measures to reduce or control light and glare impacts, if any: [Not Applicable](#)

12. Recreation [\[help\]](#)

a. What designated and informal recreational opportunities are in the immediate vicinity? [Beach walking, birding, photography, etc., and other shoreline oriented recreational uses.](#)

b. Would the proposed project displace any existing recreational uses? If so, describe. [No.](#)

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: [Not Applicable](#)

13. Historic and cultural preservation [\[help\]](#)

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe. [The Coupeville Cash Store is one of the original buildings constructed on the waterfront in the Coupeville downtown historic district. It was built by J. J. Straub who had entered into a lease agreement in 1886 with John Robertson. As part of the agreement, Straub operated a wagon shop out of the lower part of the building. In 1889 the building was leased to Blowers & Kineth who operated under the name of the Coupeville Cash Store. By 1925 it was operated as LN Sills, General Merchandise by Nells Sill. Through various owners, it continued to operate as a general merchandise store for almost 60 years. In 1952 it was purchased and converted to the Coupeville Pharmacy. It was again sold in 1959 and operated as an antique store for almost four decades under several owners. The building was originally constructed with commercial space on the lower and main levels and residential space on the second floor and remains in the same general use today.](#)

[Central Whidbey Island, including the town of Coupeville was designated a National Historic District in 1973 giving protection to older properties within the district boundaries. In 1978 Ebey's Landing National Historic Preserve was created – the first of its kind in the nation – to preserve and protect a natural landscape and rural community, thus providing a continuous historic record from the eighteenth century to the present time.” Coupeville – Thumbnail History, by Margaret Riddle, Posted 9/24/2010, historylink.org.](#)

- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. [Proposal affects existing building and places no new structures on beach. Catwalk on northside is narrow \(3'\) and about 25' above the beach such that casting a shadow was not a concern to the Washington Department of Fish and Wildlife. Further, the WDF&W determined that grating would not be required on the catwalk given its height above the water. The landing to provide access to the Lower Loft Eatery on the East side of the building is below an existing landing/deck not introducing a new shadow area. Cascadia Archaeology was retained to conduct an archaeological assessment for the site to support an earlier plan that involved placing 5 new 18" x 18" footings on the beach \(copy provided to Town of Coupeville\). While that plan was revised to eliminate the footings to achieve no new structures on the beach, the assessment found that "There is little possibility that archaeological material will be disturbed by the project..." That said, there likely is evidence of Indian use and occupation along the entire shoreline of Penn Cove. The proposed construction activities for this project are to take place on a building located, in part, in the intertidal zone.](#)
- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. [Project plans were prepared in detail and presented to the Town Planner, Town of Coupeville and Ebey's Landing Historic Preservation Commission for review and approval. Archaeological Assessment by Cascadia Archaeology dated September 4, 2019.](#)
- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required. [Not Applicable. Project will not impact cultural resources.](#)

14. Transportation [\[help\]](#)

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any. [The Coupeville Cash Store is located on Front Street in the Town of Coupeville, approximately center of the Coupeville downtown historic waterfront commercial district.](#)
- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? [Yes, small vans and low capacity public transit buses.](#)

- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate? [Not Applicable](#)
- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). [No](#)
- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. [No](#)
- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates? [Not Applicable](#). [No change from existing use.](#)
- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. [No](#)
- h. Proposed measures to reduce or control transportation impacts, if any: [Not Applicable](#)

15. Public Services [\[help\]](#)

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe. [No](#)
- b. Proposed measures to reduce or control direct impacts on public services, if any. [Not Applicable](#)

16. Utilities [\[help\]](#)

- a. Circle utilities currently available at the site:
 electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system,
 other _____ [Electricity, propane, water, refuse service, telephone, sanitary sewer](#)
- d. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. [Electric meters will be moved from the west to the east side of the building away from public view. PSE is the provider of electricity. Currently, propane is used in all but one of the units. Proposal is to eliminate propane use in all but the upper Apartment eliminating two of the propane](#)

tanks. Propane is provided by Corey Propane. Water and sewer are provided by the Town of Coupeville.

17. Economic Conditions and Impacts

The building's use remains unchanged since construction supporting a mix of commercial and residential uses. The building has contributed to the core economic base of the Town of Coupeville since its construction. Current commercial tenants include Far From Normal, Sea Bre's Yarn and the Lower Loft Eatery. There are two residences and three units (one bedroom that has been rented out separately) that have been rented as both short term vacation and long-term rentals. No change is proposed.

C. Signature [\[HELP\]](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
