

## SITE PLAN CHECK LIST

- Name, site address, parcel number and date.
- All drawings should use a standard engineers scale of not more than 1" = 30'.
- Vicinity map showing sufficient detail to clearly locate the project in relation to arterial streets, natural features/landmarks and municipal boundaries.
- Graphic scale and north arrow.
- Location, identification and dimension of all proposed, existing, and demolished buildings and their uses, projections, roof overhangs, covered breezeways, streets, alleys, rockeries, retaining walls, and fences. Note height.
- Boundaries, dimensions and area of lot (square feet or acreage).
- Building setbacks for front, side, and rear property lines which are on or adjacent to the property, including utility, drainage, access, open space.
- Include all existing and proposed easements with the intended use and Auditor File No.
- Location, width and material of existing and proposed driveways/accesses serving each structure and any parking areas and walkways.
- Impervious area and building coverage calculations as a percentage of the site area and square feet for buildings and pavement.
- Show critical areas including species habitats, geologically hazardous areas, floodplains, streams, wetlands as well as all of their associated buffers onsite or off-site when they may affect the proposal.
- Locations of all existing and proposed utilities including water, sewer, electric, and telecommunications.
- Location and description of all existing and proposed drainage features and systems, including natural drainage ways, culverts, ditches, catch basins, flow control devices and infiltration facilities. Show the direction of water flow.
- Show erosion and sedimentation control plans. Indicate all areas where soil will be exposed along with measures to limit erosion and transport of silt and sediment.
- Clearing limits and trees and vegetation to be removed and retained. Indicate lot slopes.
- Show existing and proposed finished grade contours for any cut or fill 2 feet or greater in height in plan view and cross sections. Indicate quantities of fill or excavation in cubic yards. For any material exported from the site, state quantity and where materials will be disposed. For any materials imported to the site, indicate quantity, source and type of materials.

# TYPICAL SITE PLAN EXAMPLE

Impervious Area	
House	2200 sq. ft.
Accessory Bldg.	820 sq. ft.
Covered Deck	622 sq. ft.
Driveway/Walks	1530 sq. ft.
<b>Total</b>	<b>5170 sq. ft.</b>

SCALE: 1" = 30'

DATE: 3/15/2005

## STORMWATER PERMIT APPLICATION

**Owner's Name:** \_\_\_\_\_ **Phone:** \_\_\_\_\_

**Mailing Address:** \_\_\_\_\_

**Contractor's Name:** \_\_\_\_\_ **Phone:** \_\_\_\_\_

**Location Address:** \_\_\_\_\_

**Location Tax Parcel Number:** \_\_\_\_\_

**Description of erosion and sediment control during construction:** \_\_\_\_\_

*If more space is needed for description, please attach a separate sheet.*

\_\_\_\_\_

\_\_\_\_\_

**Description of long term stormwater control:**

*If more space is needed for description, please attach a separate sheet.*

\_\_\_\_\_

\_\_\_\_\_

**Attach plans** for construction erosion control and long term stormwater control.

**Total impervious area** (all buildings, decks, patios, driveways, etc.) \_\_\_\_\_ (sq ft)

**Total parcel area:** \_\_\_\_\_ (sq ft)

The undersigned applicant hereby applies for permission to undertake such land-disturbing activities (e.g., structural development, building expansion, creation of impervious surfaces, site redevelopment, clearing and grading, etc.) regulated by Chapter 13.20 of Town Code "Stormwater Management". The applicant is the owner of the described property or the authorized agent of the owner. By signing this application, the applicant agrees, as a condition of the Town approving all other permits required by Town or other applicable regulations, to comply with all provisions of Town Code, and other such rules and regulations now existing or which may be established from time to time governing the Town's Stormwater Management Plan.
