water and sewer plant operations*

Scott Austin, Building Official

Ext 108 • buildofficial@townofcoupeville.org
*Questions about building permits, building
codes, inspections, plan review*

WATER AND SEWER EMERGENCIES

If you have a utility emergency after hours, a staff member is called from home. The Town does not have someone on staff 24/7. The Public Works and Utility staff are happy to help in an emergency. Examples of emergencies are: sewer backups in your home, broken water pipes inside your home and you don't have a water shut-off in the house, or water surfacing outside and causing property damage.

Examples that are NOT emergencies are: a drippy outdoor faucet, a drippy indoor faucet, or your plumber or landscaper wants the water turned off for repairs. For these situations, contact the Town during normal business hours.

If you do have an emergency, call **911** or non-emergency dispatch (**ICOM**) at **(360) 679-9567**. A dispatcher will put you in touch with a staff member who will ascertain the problem and come in to fix it if necessary. Please, NEVER turn the water on or off yourself from inside the meter box; it is illegal to do so as meters are public property. Meters can be easily broken and are expensive to repair.
