Regulations for Bed and Breakfast Inns are codified in CTC 5.36 and CTC 16.10.080. A Bed and Breakfast Inn is the use of a portion of a private residence or its accessory buildings where sleeping quarters are provided for monetary compensation for periods of thirty or fewer consecutive days. Guest quarters within a Bed and Breakfast Inn may include sleeping and bathroom facilities but cannot include cooking facilities other than a coffee maker, mini-fridge and/or a microwave oven. **Rental of a complete dwelling unit, including sleeping, bathroom, and kitchen facilities, is a Short-Term Rental, which is regulated separately from a Bed and Breakfast Inn.** The Bed and Breakfast Inn operator must reside on-site while guests are present. Within residential zones (RR, LDR, RM 9,600, and HDR), a Bed and Breakfast Inn may have up to two guest rooms. Within commercial zones (HLC, TC, and GC), up to eight guest rooms are permitted. Bed and Breakfast Inns in compliance with the limitations and requirements in Section 16.10.080 CTC do not require a land use permit but require an annual license. Operation of a Bed and Breakfast without a valid Bed and Breakfast Inn license or in any manner inconsistent with the information provided in the application or the conditions of approval of the license is a violation of the Coupeville Town Code.
